

Escape from work – Families / Luxury

Available on Thursday to Sunday / Return trip land transport / Licensed Tour Guide / Admission to attractions / Lunch included / Good for avoiding crowds

Sentosa Island is definitely one best choice for enjoying island life in Asia. In the late 1960s, the government began to set out proposals for developing the island, and a contest to find a new name for the island was held in November 1969. The island was renamed "Sentosa" in September 1970, which means peace and tranquility in Malay (from Sanskrit, Santosha), from a suggestion by the public.

The Yachts can bring you to Singapore's southern islands for half a day or more, allowing you to relax at sea or by the beach. You can also enjoy the fireworks of Sentosa during a sunset cruise. You will be thrilled and surprised knowing the stories of each and every Island through our guides on board. We will sail along the southern coast of Singapore towards the secluded Southern islands of Singapore (Lazarus Island, St John's Island, Sisters' Islands, Kusu and Pulau Hantu) and admire the impressive skyline of Singapore. Hurry up before you missed the Boat!

Rumours Beach Club is the only beach club in Singapore to have three swimming pools, with different pockets of spaces such as the VIP Area, Cabana Area, Beachfront Area, Indoor Area, Outdoor Area and Alfresco Area which can be sectioned off to cater for events of all sizes. From private romantic dinners to full-fledged wild parties for party-goers, Rumours Beach Club brings in a whole new beach experience perfect for any type of get-togethers.

Singapore's cable car system links Mount Faber to Sentosa Island, and is a fantastic way to both see the island and reach the dining and entertainment complex that occupies its peak.
