

Half-day Sentosa Nature Heritage Walk Tour

Time: 9:00am-12:30pm / 2:30pm-6:00pm (approx. 3 hours)

Daily available / Licensed Tour Guide / 8 kilometers Leisure Walk / Good for avoiding crowds

Beach bars, cable cars and... a military fortress? There's more to Sentosa than you thought. Home to more than 30 carefully conserved heritage trees and buildings, Sentosa also houses Singapore's only fully restored military fort, Fort Siloso. The Sentosa Nature Heritage Walk is an 8km trail routes, where you can explore and learn more about Singapore's heritage. Starting from Cable Car Station @ HarbourFront Centre and ending at the Beach Station, come to explore with our friendly guides to the historical sites such as the former British Hospital(now Madame Tussauds Singapore) and Mt Imbiah Battery which served as a defence post in the 1800s at the summit of Mount Imbiah among others. Walk through Sentosa Nature Discovery to experience a more tranquil side of Sentosa at this nature trail with interactive exhibits, sculptures and a lookout point. Get a thorough understanding of geology knowledge, topo model of Sentosa, Sentosa rocks and location. Look out for heritage trees such as the Jambu Laut Singapore's only heritage tree of this species found on Sentosa. Get to Fort Siloso via the Skywalk, a treetop trek along a spacious bridge that's 11 storeys high. Stroll along the bridge and you'll see signs providing historical tidbits about Labrador Park, Keppel Bay and more. Visit the fortified military structures and tunnels, journey back in time with stories of yesteryears. At the exit, murals created by local artist Yip Yew Chong can be found not just on walls, but on the roads and even rocks. Some of these make for fun optical illusions too! Tour ends up at Beach Station where you can enjoy your lunch either at Good Old Days or picnic with your loved ones in the shade on the beach.
